

Software for a Hard Road

HORIZON SOFTWARE SUITE

A powerful, cost effective dispatch and driver communication solution.

OUR SOFTWARE SUITE IS MADE UP OF TWO ADMINISTRATIVE OPTIONS AND A DRIVER APP.

A seamless dispatching and driver application experience in the cloud on tablets, smartphones and desktop computers.

HorizonWEB Designed to empower you and your staff with quick visibility to every customer load, every driver and every route in real time. Immediate accessible information improves decision-making. Our real-time dispatching system allows you to professionally communicate with your customers and provide detailed-concise trip information to your drivers.

- ✦ Mobile friendly dispatching, scheduling & tracking
- ✦ Map View Integration to view routes on Maps & Drivers Location
- ✦ Improve Cash Flow Quick Billing & Settlements
- ✦ Mobile Communication on the Vehicle
- ✦ Third Party Software Integration

Horizon Desktop

Designed specifically to address and improve every key role in the trucking company.

For over 30 years, through this product, we have equipped companies like yours with improved dispatching visibility, more accurate billing for accounting and better transparency, communication and pay accuracy for drivers.

- ✦ Billing & Accounting
- ✦ Settle with company drivers, owner operators & carriers in one easy to use module
- ✦ Third Party Software Integration
- ✦ Stored on your local server

HorizonGO

Allowing the driver to be a participating partner in the dispatching and HOS Process.

Drivers can receive assignments, view current driver hours and upload load status in real time. HorizonGO integrates with both HorizonWEB and Horizon Desktop.

- ✦ Real Time Connection
- ✦ Complete Visibility
- ✦ Updating Ability
