SatFONE.tag Quick Guide

SatMARS
NAVIGATIONS- & KOMMUNIKATIONSSYSTEME

Lanyard hole — SOS button

Speaker — LED light
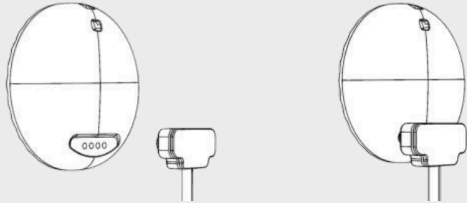

Charging contacts — Microphone
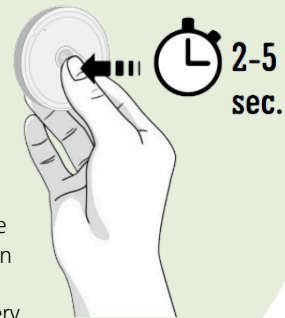

Charging your device

Please charge your device for at least 1 hour before using

- When placing magnetic USB cable to device charging contacts make sure it is positioned correctly.
  - The LED should blink when charging and solid when fully charged.
    - When the battery level falls below 20% it will send low battery warning message to all contacts via text message.

Switch ON device

2-5 sec.

To turn the device on- press the SOS button for 2 to 5 seconds. The LED will flash rapidly for a few seconds and then stop (save power). The device can also be switched on automatically by charging the battery.

Activating SOS alarm

3-4 sec.

SOS

- When you need help, press the SOS button for 3-4 seconds until you hear a voice prompt of activating an SOS alarm.
  - This starts the sequence of help message followed by the outgoing help calls.
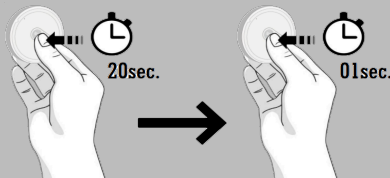

Turn OFF device

The device can be turned off only through the configuration tool.

TIP
We strongly recommend to turn off the LED to save power (short press SOS button to turn off LED).

Reboot the device

20sec. → 01sec.

To restart the device, press the SOS button for 20 seconds then stop, then press briefly for 1 second.
