

## SatFONE.watch-mini

Small safety unit on a grand scale

Thanks to the latest technology on your wrist, the SatFONE.watch-mini gives you maximum security in everyday life and reassurance for your loved ones.

In an emergency, every second counts. In case of a fall or unexpected circulatory problems, a quick emergency call should therefore be possible. With the SatFONE.watch-mini you always have your very own personal emergency helper on your wrist.

In seconds, you can notify a defined contact or a security center at the touch of a button. Thanks to intelligent sensors, the SatFONE.watch-mini does this for you when you can no longer press the emergency button yourself.

In addition to GPS tracking, SOS alarm, case alarm, geo-fence alarm, two-way communication and Bluetooth, the SatFONE.watch-mini impresses with numerous health functions. Keep an eye on your health using the data collected on your wrist. The SatFONE.watch-mini measures your body temperature, records your blood pressure, blood oxygen level and heart rate.

## Features

- Screen Size: 1.0 inch TFT 128\*64 resolution
- Waterproof: IP67
- Chip: Unisoc UIS8910 CAT1 LTE Cortex A5 500Mhz
- Bluetooth-Version: BLE5.0 optional
- GPS: GPS+BDS; GPS+GLONASS
- GPS/GSM-Antenna: LDS
- Frequency band: GSM 850/900/1800/1900MHz  
LTE B1 B3 B7 B8 B38 B39 40 B41
- SIM card: Nano SIM, integriert
- Charging: Magnetisch 2 Pin
- Battery: 680mAh 4.35V Lithium Polymer Akku
- Funktion / Alarms: Date, Step counter, Heart rate, Blood pressure, Body temperature, GPS position, Two-way call, SOS alarm, Geo-fence, Low battery alarm, OTA
