

SatFONE.pro

The SatFONE.pro is a mobile 4G tracking unit with alarm button, drop sensor and two-way communication. Perfect for senior citizens or lone workers. Thanks to GPS and motion sensor, the security center is alerted if the owner has fallen, has not moved for a long time or has left a defined zone, thus enabling a quick response in emergencies. Thanks to the intelligent docking station with Bluetooth function, it can also be used indoors.

Technical data

-  | 53 g
-  | 62 x 47 x 17 mm
-  | Rainproof, protected against splash water (IPX6)
-  | 1000mAh built-in lithium battery

Standby-Zeit

Standby without motion		10 days
