

SatSENS.siren

The SatSENS.siren is an acoustic signaling device with a two-tone alarm. Thanks to its low power consumption and IP65 protection class, the SatSENS.sirens can be used indoors and outdoors in many areas.

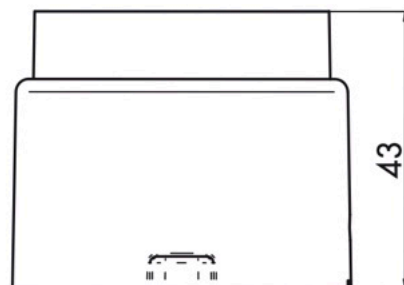

Technical data

Operating voltage	12 V/DC and 24 V/DC
Max. Current consumption	35 mA
Signal type	Multi-tone
Diameter	52 mm
Height	43 mm
Number of tones	32
Protection class	IP65
Color	White
Material	ABS
Noise level (max.)	101 dB
Max. Temperature	+70 °C
Min. temperature	-25 °C
Weight	86 g

Advantages

- Very good sound reproduction
- Low power consumption
- 32 selectable tones
- Automatic synchronization
- Volume control
- Two-tone alarm

Very good acoustic reproduction

Low power consumption

Automatic synchronization
